MFK FINGER FOODS MANUFACTURING

MFK FINGER FOODS CATERING

SHOP ON YAMEE

STUDIO MFK

MFK Finger Foods is headquartered in Botswana. The company's line of business includes the wholesale manufacturing and distribution of fresh or frozen finger foods.

We are driven by a passion for food, hospitality and the success of our customers. Our goal is to produce and present distinct (while rich and delicate) authentic appetizing global finger foods intended for cafes, restaurants and stores, launching off with the curry puffs. This way we push the boundaries of modern cuisine in Africa and become the leading store in the region. We prepare our products from raw ingredients. It takes time but gives the edge to our unique MFK flavours.

Today our attention is building our brand. To do so, we provide food catering services for intimate events such as boardroom meetings, family or corporate events, food delivery through Yamee and offer culinary courses at our Studio MFK for cooking enthusiasts. This is before we step out as a an industry with our franchisees and operate manufacturing outlets.

### Growth through Partnerships

Pinnacle Foods values long-term partnerships with our suppliers, distributors and end retailer. We believe this provides stability to all parties and the confidence to invest in growing our industry. We recognise our corporate and social responsibilities reside as much in our supply chain as in our activities. We look for suppliers that demonstrate a commitment to implementing policies and practices consistent with and complementary to our own. As a result we have grown with our partners and our product range now extends to seedling, raw ingredient and finger foods production.
